SUBJECT GROUP 9600-9699 OUTFIT AND FURNISHINGS

SUBGROUP 9690 - SPECIAL PURPOSE SYSTEMS

9690.1 General

a. IFF Testing Capabilities. Fleet Technical Support Center Atlantic (FTSCLANT) has a training facility for the AN/APX-72 transponder. FTSCLANT also provides testing of the transponder utilizing the hand held test set TS-4077/APM-424(V) and the AN/APM-AUX Programmer for mode 4 testing. FTSCLANT does not calibrate either test units. Arrangements may be made by contacting FTSCLANT, Building W-130, NAVSTA Norfolk.

b. TACAN Testing Capabilities. FTSCLANT has a non-certifiable on-the-air TACAN testing capabilities utilizing the AN/URM-507B radio beacon test set. Testing is available by contacting FTSCLANT.
